PROFESSIONAL SUMMARY

Results-driven Software Engineer with hands-on experience in Java, Spring Boot, and RESTful API development. Currently working as a System Engineer Intern at Infosys, building and optimizing backend services. Prior experience in data analytics with Python, SQL, Power BI, and Excel across two internships. Demonstrates strong adaptability, having transitioned from a data-focused role to enterprise backend development. Passionate about clean code, scalable architecture, and continuous learning.

PROFESSIONAL EXPERIENCE

System Engineer Intern

Infosys | August 2025 – August 2026

- Develop backend components and RESTful APIs using Java and Spring Boot for enterprise-grade applications.
- Integrate relational databases (MySQL) with Spring Data JPA to support data persistence and retrieval.
- Collaborate with frontend teams on Angular integration, ensuring seamless full-stack data flow.
- Debug, optimize, and test backend services for performance, reliability, and code quality.
- Participate in Agile/Scrum sprints, daily stand-ups, and code reviews under senior developer mentorship.

Data Analyst Intern

Cyfotok | April 2025 – July 2025

- Completed a 3-month data analytics training programme with real-time project work and deliverables.
- Cleaned, transformed, and analyzed large datasets using Python (Pandas, NumPy) and SQL.
- Developed Power BI dashboards and KPI reports to support internal team decision-making.
- Applied statistical concepts and data modeling techniques including trend analysis and KPI tracking.

Data Analyst Intern

NextGen Technologies, Cuddalore | July 2024 – August 2024

- Performed data cleaning, preprocessing, and visualization using Python and Microsoft Excel.
- Developed beginner-level Power BI dashboards and reports for data insights presentation.
- Built a foundational understanding of SQL queries, relational databases, and data interpretation.

EDUCATION

B.E. – Computer Science & Engineering	Vidyaa Vikas College of Engineering & Technology	CGPA: 7.7	2020 – 2024
12th Standard (HSC)	Nirmala Matriculation Higher Secondary School	75%	2019 – 2020
10th Standard (SSLC)	Williams Matriculation School	89%	2017 – 2018

TECHNICAL SKILLS

Backend Development:	Java, Spring Boot, RESTful APIs, Spring Data JPA, Spring Security, Maven
Frontend:	Angular (Basic), HTML, CSS
Databases:	MySQL, SQL (Joins, Aggregations, Stored Procedures, Indexing)
Data Analytics:	Python (Pandas, NumPy, Matplotlib), Power BI (DAX, Dashboards), Microsoft Excel
Tools & Platforms:	Git, Postman, Jira, IntelliJ IDEA, VS Code
Concepts:	OOP, SDLC, Agile/Scrum, Data Modeling, REST Architecture, Cloud Computing (Basic)

PROJECTS

GPS-Based Attendance Monitoring System

- Designed a system that uses GPS technology to verify employee/student location at check-in/check-out, preventing proxy attendance.
- Implemented location-based proximity verification with timestamped records stored in a relational database.
- Built reporting modules to visualize attendance trends and generate daily/weekly summaries.

IoT-Based Automatic Vehicle Accident Detection and Rescue System

- Developed a real-time accident detection system using IoT sensors (accelerometer, gyroscope) to identify collision events.
- Integrated GPS module to capture and transmit the vehicle's exact location upon accident detection.
- Automated emergency alert system that notifies predefined contacts and emergency services with location data.

WORKSHOPS & TRAINING

- Workshop on UI/UX Design — Excel College of Engineering and Technology
- Workshop on Robotics — Kongu College of Engineering and Technology
- Data Analytics Training with Real-Time Project Work — Cyfotok (3 Months)

ADDITIONAL INFORMATION

Date of Birth:	07 December 2002	Languages:	Tamil, English
Father's Name:	R. Vaithyanathasamy		

I hereby declare that the information provided in this resume is true and correct to the best of my knowledge.
