## Objective

Looking For a Job Opportunity Where I Can Use My Education And Skills To Achieve Personal And Professional Growth While Making A Positive Impact On The Company.

## Experience

- Infosys**  
August 1, 2025 - August 1, 2026  
System Engineer  
Developing backend components using Java & Spring Boot.  
  
Building RESTful APIs, integrating databases, and improving backend performance.  
  
Collaborating with senior developers to understand enterprise-level software architecture.  
  
Debugging, optimizing, and testing backend services for better reliability.
- Cyfotok**  
April 1, 2025 - July 1, 2025  
Data Analyst  
Completed a full data analytics training + real-time project work over 3 months.  
  
Worked extensively with Python, SQL, Power BI, and Excel to clean, analyze, and visualize datasets.  
  
Built dashboards and reports to support decision-making for internal teams.  
  
Strengthened knowledge in statistical concepts, data modeling, and KPI tracking.
- NextGen Technologies**  
July 1, 2024 - August 1, 2024  
Cuddalore  
Performed data cleaning, preprocessing, and visualization tasks using Python & Excel.  
  
Created simple Power BI dashboards and reports for beginner-level data insights.  
  
Developed a strong foundation in SQL queries and data interpretation.
